

Tuck box template: coming soon

We do not have a precise die-line ready for this box yet (fold lines, glue tabs, exact panel shape), so we are not publishing a guessed one.

For now: upload your artwork for the front, back and two side panels (see the example on the page), and our production team will lay it out correctly on the real die-line before printing.

Need the exact box dimensions right now? Contact us at info@utaliicreative.com and we will send them directly.
